**PREFACE**

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P10 (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

The Zhukovka Ammunition Storage Depot Sergino South is located 8 kilometers (km) southeast of Kemchug, 74 km west of Krasnoyarsk, and 81 km southwest of Achinsk. The installation is served by a 6 km spur from the main rail line between Krasnoyarsk and Achinsk. The installation is connected to Kemchug by an improved secondary all-weather road.

The installation encompasses approximately 875 acres and includes 63 explosives storage buildings, one transshipment building and one guard post within a double-fenced storage

area. A group of 36 support buildings is located approximately one km northwest of the secured storage area, adjacent to the rail spur. Eight miscellaneous security and support buildings surround the secured storage area.

Coverage in [REDACTED] confirms winter activity within the support area. There has been no apparent change in this installation since its initial coverage in [REDACTED]

The installation was covered by [REDACTED] KEYHOLE missions between [REDACTED]

DESCRIPTION OF INSTALLATION

Railroad Service

The installation is rail served. One transshipment building is located inside the 390- by 30-foot storage area.

Road Service

The installation is served by a 6 km improved, all-weather road from Kemchug. The secured storage area is served by short access roads leading to the storage buildings.

Administrative and Troop Housing Area

Area D contains 36 administrative/support buildings. The function of the individual buildings within this support complex cannot be de-

termined from photography.

Ammunition Storage Area

Area F contains fifty-nine 130- by 80-foot storage buildings, three 225- by 60-foot storage buildings, one [REDACTED]-foot storage building, eight support buildings, and one probable support building. Dimensions of the support buildings are undetermined. No revetments are observed around the storage buildings. The area includes an internal security post and external security posts around the perimeter of the secured storage area.
